

## **Position: Geological Technicians**

Anaconda is initiating the next phase of exploration and resource evaluation at its Goldboro Project in Nova Scotia. We would like to hear from Geological Technicians interested in working on the exploration program.

### **Job Description:**

**Position:** Geological Technicians

**Location:** Nova Scotia

**Closing Date:** July 22, 2018

**Duration:** minimum of nine months

### **Duties include but are not limited to:**

- Maintaining a safe and productive work site;
- Preparing drill sites, interacting with the drill contractor;
- Retrieving of drill core and maintaining an organized work space and core storage;
- Assist with daily logging of diamond drill core;
- Assist with recording of drill logs into a database;
- Sample cutting and preparation for shipping following established QA/QC procedures;
- Daily reporting of results to other members of the exploration team;
- Interacting with the exploration team on planning and executing exploration plans.

### **Qualifications**

- Previous experience as a Geological Technician;
- Knowledge of diamond drill core and its organization;
- Strong communication skills;
- Previous use of Microsoft Excel and/or data entry into a database;
- Proven ability to work independently and as part of a team;
- Excellent time management skills;
- First Aid and/or wilderness first aid training.
